Loosing the "Bear"

The city of El Paso and the surrounding area is mourning the loss of a great supporter of UTEP. Coach Don Haskins will be remembered for his contributions and love of the people in our area. The El Paso Times had a wonderful article about him in the Monday, Sept. 8 edition. The memorial celebrations of his life will take place all week. We all should celebrate his life and memory.

Had enough mosquitoes?

The neighbor spraying is being done in the evening or early morning when there is no wind. The spay settles in our grass and is not harmful to pets. If you are worried about the effect of the mosquito cocktail on your animals, keep them in during those times.

***Keeping weeds pulled and tall grass mowed will help our fight against the little buzzers too. If you need help in your area of the neighborhood let Lydia Barnhouse know, so Marcelino can spay.

Newsletter Committee needs volunteers.

If you would like to serve on this committee please call Janna Daniels 8749182.

Arsenic Removal

The arsenic removal committee is planning an informational letter very soon. Mike Graham is the chair and his committee reports at each board meeting. They have certainly done a lot work meeting the federal mandates for water quality.

New Restaurant

There is a new restaurant in Canutillo. Peppe's at 6761 Doniphan is good Mexican food. They are open at 11:00 am, so go by and have a great meal.

How does your garden grow?

With all the rain the gardens are doing great. If anyone wants to share their produce let me know and we will feature it in the next newsletter.
